POLYESTER PLATE & PAPER LITHOGRAPHY

Tuesdays, March 16 – May 4, 2010, 6:30-9:30pm

\$230 APS members / \$240 non-members

Instructor: Joe Tsambiras

Learn two printmaking processes to print hand drawn and photocopied/laser-print images onto fine art papers. These techniques work well using original artwork as well as found images as source material. Photographic images can also be printed beautifully using this form of printmaking. Throughout the course, we will also be exploring various techniques from printing multi-color images to printing from large-scale photocopies. Emphasis will be put on mastering these techniques as well as focusing on specific goals that individual students set out to accomplish. Students will be encouraged to experiment and create original prints throughout the class.

Joe Tsambiras has an MFA from Georgia State University’s Ernest G. Welch School of Art and Design and exhibits his prints nationally. He is an avid printmaker who currently specializes in alternative lithography techniques and etchings.
